

Workflow Automation & Change Leadership

**Optimize Processes
Lead Meaningful Change**

What You Get

- ✓ **Process Mapping & Pain Point Discovery**
Understand how work is currently done and where friction or inefficiencies live
- ✓ **Automation Opportunity Identification**
Discover where AI or digital tools can simplify recurring tasks
- ✓ **Change Management Planning**
Develop an adoption roadmap that balances leadership vision with team buy-in and ease of rollout
- ✓ **Pilot & Activation Support**
Execute a small, high-impact automation pilot to build confidence and internal momentum
- ✓ **Team Enablement Tools**
Provide documentation, quick-start guides and internal messaging templates to ease adoption

Why It Works

- ✓ Built for contract furniture workflow
- ✓ Combines automation with change management
- ✓ Drives adoption without overwhelming teams
- ✓ Turns strategy into real-world solutions
- ✓ Led by a fractional leader with 20+ years of experience in design ops and emerging tech

Investment

- Starts at \$5,000 based on scope of work
- 4-6 week project timeline, consisting of Discovery & Mapping, Automation Opportunities & Change Planning, and Pilot & Enablement
